

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I have a wireless phone in my car for safety only. I do not conduct business or personal calls from this phone.

I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

William Sprague
